FRAGRANCE FAMILIES

Fragrance Families are a simple way to categorise different types of fragrances.

Each of our scents is assigned to one of our 4 Fragrance Families and these are depicted as icons on our new-look packaging.

Merchandising by Fragrance Family makes it easier for consumers and more likely they will experiment with different scents.

Soft & Floral – Featuring key notes of flowers, giving them a classic soft feel.

Spicy & Woody – Thought of as rich and warming, these scents feature key notes of earthy woods or exotic spices.

Fresh & Natural – Scents that feel light, bright, and refreshing. Using green and aquatic notes for fragrances that evoke the freshness of nature.

Fruity & Exotic – Containing key notes of delicious fruits, often evoking a summery and exotic feeling.

Our mission should be to have a positive impact on our customers, colleagues and communities by connecting people to a world of scents and memories. Take them to places they remember fondly or have never been and give them both everyday essentials and affordable luxuries through the power of scent and the quality of our fragrances.

Our vision is to lead the home fragrance category through our expertise, innovation and excellence.
